DiMarzio ClipLock® Quick Release Guitar Straps:

The DiMarzio ClipLock® Quick Release strap system is the most secure and unique fastening method available. The cornerstone of the ClipLock® strap is the heavy-duty acetal clip that allows you to change it easily from guitar to guitar with a little fingertip pressure, yet has enough holding power to meet military specifications.

The ClipLock® fastens permanently in place of your strap buttons with two sturdy bushings and extra-long screws (included). We include two different screw sizes to fit most popular guitar models. DiMarzio ClipLock® straps adjust in length from 43 to 63 inches (110-160 cm), measured between the strap buttons, and come with illustrated instructions. Extra short models adjusting from 39 to 57 inches (100-145 cm) are available at no extra charge.
